## Accord Message Issued

Ike, Mollet Agree That There Is Hope Israeli-Egyptian Solution Is Near

WASHINGTON (AP)—President Eisenhower and French Premier Guy Mollet today expressed "common conviction" that a solution in the Middle East "can be achieved by peaceful means, in conformity with the principles of justice and internal law."

Ending three days of talks aimed in large part at repair of Franco-American relations, Eisenhower and Mollet in a joint statement reaffirmed a United Nations declaration of last October calling for "free and open trading" through the Suez Canal "without discrimination."

The President and the French Premier made no reference in the communique to mounting hopes for withdrawal of Israeli forces from the Gaza Strip and the Gulf of Aqaba area without resort to U.N. sanctions against Israel.

Their statement included only one brief paragraph to the middle east crisis. It said:

"With reference to the Middle East, they (Eisenhower and Mollet) stated their common conviction that solution to the problems of the area can be achieved by peaceful means, in conformity with the principles of justice and international law."

On a related Mideast issue, the statement said:

"With regard to the question of the future status of the Suez Canal, they recalled that the 1888 treaty contemplated a definitive system to guarantee, at all times and to all powers, the free use of the canal."

"In this connection, they reaffirmed their adherence to the six requirements unanimously adopted by the United Nations Security Council and accepted by Egypt last October, which called, among other things, for free and open trading through the canal without discrimination, and insulation of the operation of the canal from the politics of any country."

Otherwise, the communique said that Eisenhower and Mollet expressed pleasure "as old friends" at meeting again.

Mollet came to Washington reportedly ready to back Israel's demands for security safeguards against any new military action by Egypt in advance of Israeli withdrawal of its forces out of disputed Middle East territory.

## Seek Identity Of Boy's Body Found in Box

PHILADELPHIA (AP)—Police seeking the identity of a slain boy whose body was found in a cardboard box on a vacant lot turned their attention today to a report that a woman and a male teenager "unloaded something" from a car near the lot.

Detective Lt. William Lovejoy said the lead was provided by a motorist who said he saw the two late Sunday afternoon.

The body of the boy, about 4 or 5, was found by a college student Tuesday. Dr. Joseph Spelman, the city's chief medical examiner, said the boy was beaten to death, and that he had been dead two or three days. The body was unclothed but wrapped in a blanket.

Lovejoy said that his informant described the woman as heavily built, of medium stature and between 40 and 50 years old. Her companion was 13 or 14 years old and as tall as the woman.

This tip came soon after the often-declared Arab stand on the Suez Canal, on Israel's occupation of the Gaza Strip and the Sharm el Sheikh area on the Gulf of Aqaba, and on Algerian nationalism.

The four leaders said they would work for Israel's immediate and unconditional withdrawal from Gaza and Aqaba to the 1949 armistice lines. They said the Middle East is in jeopardy while Israel "persecutes and oppresses" the Arab population in Gaza.

## INSIDE

Everyone seems to be satisfied with "I Love Lucy," one of the leading TV programs, except the stars themselves. Read about it in a story on Page 9, Section 1.

The US State Department will have all of its offices under one roof for the first time in many years when a new office building is completed in Washington. A story on Page 6, Section 2, tells of the "stepchild existence" of the department.

## Water, Coffee And Milk Aid Plane to Land

DETROIT (AP)—Twenty-six persons were trapped in the sky for six hours before one final effort locked a balky landing gear in place and allowed a Capital Airlines Constellation to glide in at dusk for a safe landing.

The four-engine plane's five-man crew used water, coffee and milk to build up hydraulic pressure to force the Constellation's nose wheel into place for the landing.

After the landing, the crew and 21 passengers alighted smiling and thankful. The passengers appeared unaware that their plight had prompted emergency crash rescue operations at Milwaukee and Detroit airports during the five hours the plane flew from Gen. Mitchell Field to Willow Run to burn up gasoline.

The plane was Flight 930 from Minneapolis to Philadelphia, via Detroit and Milwaukee. It touched down at 6:05 p.m. and immediately was impounded by civil aeronautics officials for a complete inspection.

Capt. William Richie, 38, of Minneapolis, the plane's pilot, said he knew the landing gear had an air lock moments after takeoff from Milwaukee when he tried to raise the nose wheel.

He immediately radioed for aid and a special Viscount carrying hydraulic engineers from Capital's Washington headquarters was rushed to within radio communication. The landing gear was repaired while engineers gave instructions to the crew over Lake Erie.

Fifteen minutes after the wheel locked in place the ship touched ground with its main wheels, rolled some 50 yards with its nose high in the air and eased down on the nose wheel. It held and, without applying brakes, Richie coasted up to 10 ambulances, five fire trucks and scores of police cars on the runway.

## New US Ambassador Presents Credentials To Queen Elizabeth II

LONDON (AP)—John Hay Whitney, new U. S. ambassador to Britain, presented his credentials to Queen Elizabeth II at Buckingham Palace today.

He drove from the embassy to the palace in the traditional upholstered carriage, accompanied by the marshal of the diplomatic corps, Maj. Gen. Sir Guy Salisbury-Jones.

Foreign Secretary Selwyn Lloyd was present when the ambassador was presented to the Queen. The sovereign later received Mrs. Whitney.

## Wants State Wage Control

### Submits Bill to Regulate Basic Rate, Work Conditions

JEFFERSON CITY (AP)—Missouri would regulate wages and working conditions throughout the state and the minimum would be 75 cents an hour under a bill introduced in the House of Representatives today.

The new measure, introduced by Rep. M. E. Bauer (D) of Jackson County and several others, would authorize the state director of industrial inspection to investigate wages and working conditions in most occupations and set state minimum wages for each type of work.

The only occupations not covered by the proposed new law would be those of agricultural or domestic help, professional workers or government employees.

Upon petition by 50 or more persons, the director could enter into an investigation, require employers to produce all records, make personal inspections of plants and establish regulations setting out minimum wages.

He could create labor boards from time to time to make the inspections for him and recommend regulations for any industry. The wage boards would be composed of not more than three persons representing labor, three representing management and three representing the general public.

The director could reconsider wage scales at any time and adjust them provided that no wage fell below the state minimum.

wage of 75 cents an hour. Lower rates could be specified for apprentices or for handicapped persons, however.

His decisions could be appealed to the circuit courts.

Rep. J. M. Moore (D) of Caldwell County virtually abandoned his bill to prevent any part of Missouri from using daylight saving time unless all the voters of the state approved.

He said he was shelving it "indefinitely." As he made the announcement, someone thoughtfully dimmed the lights in the big House chamber.

St. Louis is the only sizable city in Missouri that has been using daylight saving time in recent years. The lawmakers from St. Louis had agreed in a special meeting to oppose Moore's bill.

Before quitting for the weekend the House advanced a broad bill revising Missouri's dairy law. Sponsors said it generally followed the recommendations of a group of farm leaders, milk processors and distributors last summer. It is similar to a revision bill that passed the House two years ago but died in the senate.

Before advancement today it was amended to increase the minimum butterfat content of grade A milk from 3 1/2 to 3 3/4 per cent.

## Says Southeast Is Sued

## Representative Wants State To Expand Truck Farming

JEFFERSON CITY (AP)—The chairman of the House Agriculture Committee said today truck farming "could be the next multimillion dollar industry in Missouri."

Rep. J. S. Wallace (D) of Sikeston, back from a four-day research expedition to Texas' Rio Grande Valley, wants to see Missouri start producing spinach, okra, squash, brussels sprouts, blackeyed peas, tomatoes, broccoli, cauliflower, green beans and cantaloupes, instead of just cotton, grain and soybeans.

The next move, he said, will be to press for "an appropriation—I don't know how much yet—to help our sagging farm economy."

He said research must be made to enable the vegetable industry

to boost incomes hurt by government crop restrictions.

"Our cotton crop in southeast Missouri has been cut one-third by government reductions," Wallace said. "We're losing our economy and our people—the people are moving out by the thousands. And every county in southeast Missouri has shown a population loss except in the immediate Sikeston area."

Wallace said his Texas tour uncovered these facts:

Vegetable processing plants are booming in the Rio Grande Valley. Per acre income from vegetables is high—an average gross income of \$200 an acre in the valley.

Southeast Missouri is "ideally suited" to compete with the Rio Grande Valley for production honors.

## New Ideas Continue

## Blair Summons Committee To Write Nurse Home Rules

JEFFERSON CITY (AP)—Gov. James T. Blair summoned a special committee to Jefferson City today to start the big job of writing fire and safety rules for Missouri nursing homes.

The goal is to prevent any more disasters like the Warrenton fire

that took 72 lives. The committee, headed by Sidney Maestre, St. Louis banker, tackled the job after lunching with the governor at the executive mansion.

Meanwhile new ideas about handling the nursing home problem continued to pop up in the Legislature.

Sen. John W. Joynt (D) of St. Louis proposed a state loan program to help nursing homes make repairs necessary to meet the new standards to be developed by the governor's emergency committee. First he would ask the voters to approve a change in the 1945 constitution that would permit the state to use its funds for such a purpose.

The loan fund would be set up with \$500,000 from the state general revenue fund and nursing homes would be eligible to borrow from it at four per cent interest. The loans would mature in 10 years.

Loan applications would have to be approved by the director of the Department of Public Health and Welfare and the three division heads in charge of public health, welfare and mental diseases.

A bill giving the Division of Health other broad powers to regulate nursing homes passed the Senate yesterday and is pending in the House.

## Cattlemen to Meet

A district Holstein cattle breeders meeting is being held in the county court room at the courthouse in Sedalia on this Friday. The meeting will start at 1 o'clock. A local Holstein man, Lee Dow, is making arrangements and further information can be obtained from him.

## Angus Cattle Dispersion Opens Today

Buyers From U. S. And Canada Here For Thompson Sale

One of the largest dispersion sales to be held in Missouri began Thursday at the E. W. and Sylvia Thompson ranch just west of Sedalia on U. S. Highway 50. There are 584 lots to be sold during the three day sale.

Mr. and Mrs. E. W. Thompson, were host to more than 150 out-of-town visitors here to attend the sale, at a buffet luncheon held in the Ambassador Room of the Bothwell Hotel, Wednesday night. The visitors attending represented buyers from Maryland to California, and Texas to Canada.

The purebred Aberdeen-Angus herd of cattle, 124 bulls and 460 females, many with calves at foot, were in the offerings at auction.

Schedule of sale opened Thursday with herd bulls; show herd, both bulls and females and all the family females that can be disposed of the first day. Friday, bulls for purebred and commercial herds; several hundred females of Standard families; nurse cows and show equipment. Saturday, purebred unregistered Angus heifers; 50 purebred cows, not cataloged to sell; and some cattle, that could not be properly identified will be sold at conclusion of sale as grade cattle.

Additional cattle other than the 124 bulls and 460 females of registered stock will be the total number of head to be auctioned off to more than 800. Several buyers present at the luncheon expressed expectations the sale would bring in up to the hundreds of thousands of dollars. They also considered the sale as one of the largest of Angus breed to be held in Missouri.

Many of the buyers arrived in Sedalia via air travel landing at the Sedalia Municipal Memorial Airport in private and charter planes. The lighted field made it possible for several to land in Sedalia at night, the first time in Sedalia's history for safe night flying and landing here.

## Office Workers Watch Unusual Sight for City

NEW YORK (AP)—Thousands of Rockefeller Center office workers quit their desks this morning and thronged windows for a spectacular sight never before witnessed in the skyscraper development.

It was a flaming truckload of wastepaper—contents of wastebaskets from the spectators' very own offices.

Strong winds swept burning bits of paper high in the canyons between the buildings and dropped them over a wide area, including Rockefeller Plaza's famed sunken skating rink. No damage resulted, however.

Great billows of smoke poured around the buildings and seeped into offices.

The truck was being loaded in a basement of the Associated Press building at 50 Rockefeller Plaza when one bag burst into flames.

The bag was quickly pulled off, but other containers were found to be afire also and the truck was driven up a ramp and into 50th St., along the north side of the RCA building.

## Urges Ike to Lift Ban on Red China

CHICAGO (AP)—The Inland Daily Press Assn. has urged President Eisenhower to lift the government ban forbidding U. S. newsmen from entering Red China.

## Continue Private Talks

## Asian, Arab Nations Press For Sanctions Against Israel

UNITED NATIONS, N. Y. (AP)—Asian, Arab and Soviet bloc countries notified the U. N. today they would press ahead with their demands for sanctions against Israel despite the continuation of private talks here and in Washington.

A scheduled morning debate on the Israeli-Egyptian dispute was canceled, but at least five speakers—all in favor of sanctions—said they were prepared to take the floor at an afternoon session of the General Assembly at 3 p.m.

Those listed to speak were Bulgaria, Jordan, Iraq, Indonesia and the Soviet Union. All are known to favor sanctions unless Israeli troops are withdrawn at once from the Gaza Strip and the Sharm el Sheikh area, on the Gulf of Aqaba.

Meanwhile, U. S. delegation sources said Ambassador Henry Cabot Lodge was continuing his private conversations. They said the situation was expected to be clarified before the afternoon session.

Delegates were bewildered by conflicting statements from Washington and Jerusalem on a reported agreement under which Israeli forces would withdraw behind the 1949 armistice line.

An Israeli official in Jerusalem denied any such action had been agreed upon.

Reports from Washington said the United States, France and Israel reached agreement on a plan for Israeli troops to withdraw promptly from Gaza Strip and Gulf of Aqaba areas. The plan was said to call for their replacement by troops of the U. N. Emergency Force, who would remain in the disputed areas until the Egyptian-Israeli troubles quieted.

Omar Loufi, head of the permanent Egyptian delegation to the United Nations, described the Washington development as news to him and asserted Egypt would still say where U.N. troops will be stationed on her territory and how long they may stay.

Another new Assembly field appeared likely if the Cairo government and Egypt's Arab-Asian supporters in the United Nations follow through on Loufi's initial reaction. Egypt in the past has firmly insisted that the U. N. troops should stay on her soil only until all other foreign troops are out—and no longer.

It was not clear whether the

## Arab Powers Stay Neutral In Cold War

CAIRO, Egypt (AP)—The four-power Arab summit conference has reaffirmed neutrality in the cold war. It took no public stand on Communist penetration of the Middle East or the Eisenhower doctrine.

The conference issued a windup communique last night. It was signed by King Saud of Saudi Arabia, King Hussein of Jordan, President Shukri Kuwaty of Syria and President Gamal Abdel Nasser of Egypt.

The conference had special significance in the light of Saud's recent talks with President Eisenhower in Washington. The communique praised the King for explaining to American leaders the "Arab point of view regarding Middle East problems and other questions raised."

The four Arab leaders reaffirmed their "positive neutrality" in the cold war. They said they were determined to shield Arab countries from its harmful effect.

The communique declared the Arab states must provide their own defense "outside the sphere of foreign pacts." This was an obvious slap at one important Arab state conspicuously absent—Iraq. While that country has declared repeatedly its solidarity with the others regarding Israel and Arab nationalism, it belongs to the Western-allied Baghdad Pact and says it has no intention of quitting it.

The communique reiterated the often-declared Arab stand on the Suez Canal, on Israel's occupation of the Gaza Strip and the Sharm el Sheikh area on the Gulf of Aqaba, and on Algerian nationalism.

The four leaders said they would work for Israel's immediate and unconditional withdrawal from Gaza and Aqaba to the 1949 armistice lines. They said the Middle East is in jeopardy while Israel "persecutes and oppresses" the Arab population in Gaza.

## Indications Are March Will Enter Like Lamb With Warmer Weather

KANSAS CITY (AP)—From all indications March is coming to Missouri like a lamb.

Mild weather is forecast. It will be warmer this afternoon and there will be little change in temperatures Friday with highs in the 50s.

There is no precipitation in sight.

## Woman Walks Down Tracks to Her Death

SUNBURY, England (AP) — Mrs. Myra Sleet was 40 and the mother of seven children, the youngest born only 10 weeks ago.

Just before the birth of the last baby she was found unconscious in her gas-filled kitchen. Her husband came home from work in time to revive her.

Last night she found out an eighth child was on the way. She walked silently out of the house, headed down the street onto the railroad and kept walking down the tracks.

## Man Narrowly Escapes Death From Antenna

DALLAS (AP) — A TV fan narrowly escaped death when a portable video antenna fell into the bath tub with him last night.

Gilbert Nobel, 39, was found unconscious from electric shock. His wife, who weighs only 120 pounds, tugged her 180-pound husband from the tub.

Investigators said his wife's pulling probably started Noble's breathing again.

## Competition Is Sharpening In Most Lines

By SAM DAWSON

NEW YORK (AP) — Competition is sharpening in most lines today. Which is just another way of saying that the howls of pain will become louder.

Small business says big business is smothering it. One set of retailers says another's tactics are unfair. One industry complains that another by trying to oversell the market keeps consumers too poor to buy other products. One group contends money is kept ruinously tight just to benefit the lending fraternity and to stifle the expansion and building hopes of borrowers.

In almost all cases the complainants want the government to limit the competition.

The amazing industrial growth of the United States is generally attributed to the union of free enterprise and competition—or what the Advertising Council, Inc., calls "the people's capitalism."

But when it comes to individual cases, competition — given so much praise as a generality — can be a constant taskmaster and even a ruinous one.

"Every major innovation in industry and commerce has been resisted and, when possible, resisted by those who were hurt by it," the March survey of the Guaranty Trust Co. of New York notes today.

"All competition is ruthless and cutthroat to those who are unable or unwilling to meet it."

Unfair competition is dealt with by a number of regulatory bodies. But the bank contends that in many cases "the charge of unfairness means only that the practice complained of is contrary to existing usage in the industry or trade—that it is an innovation."

If a new product or a new way of producing one cuts costs, improves quality, or in some way serves the needs of consumers, the bank holds it to be a step in economic progress—even though it means injury to those who cannot or won't adapt to it.

The bank says: "If new practices had always been prohibited as unfair competition because they were contrary to existing usage, the world would still be in the stone age."

As for the product in which it deals—money and credit — the bank thinks the present competition among borrowers all to the good — and much preferable at the present time to competition among lenders. In other words it prefers tight to easy money just now.

Tight money, it holds "is a natural reflection of keen competition for a limited supply of goods

## Jack Webb and Wife Separate Third Time

HOLLYWOOD (AP) — Actor Jack Webb, 36, says he and his wife, Dorothy Towne, 26, have separated for the third time. They were married in Chicago Jan. 11, 1955.

"We haven't gotten as far as divorce talk yet or even to negotiations on a property settlement," Webb said yesterday. His wife notified him from Mexico, he added, she had decided on a separation.

Webb, best known as television's Sgt. Friday, formerly was married to singer Julie London, by whom he has two daughters.

## Judge Tries New Way To Handle Drinkers

CONCORD, N.H. (AP) — Municipal Court Judge A. J. Chretien is trying out a new program involving habitual drunks — a choice of a fine or attending 10 meetings of Alcoholics Anonymous.

The first person to come before the judge under that program yesterday decided to attend 10 meetings rather than pay a \$25 fine.

## Town Loses Postoffice

BENNETT, N.M. (AP) — This little southeastern New Mexico community is losing its postoffice. The postmistress, Mrs. Doris H. Rose, resigned because of ill health and the Post Office Department figured it would be \$1,289.23 a year cheaper to put Bennett's 98 population on a star route and close the postoffice.

and services." The bank finds the tight money policy "an essential means of preserving the balance between demand and supply when the competition becomes too keen."

Those who find some unpleasant features in this particular competition won't agree. They include many would-be home builders, small businessmen and some school boards.

Its price level you can see right here — right down close to the smaller cars.  
But you'll have to see in person how much more you get for each dollar you pay in a Buick.  
Fact is, this one's all new — straight through — deep inside where it counts most.  
Sure, it has the new look and line and dashing low profile that go with a brand-new body.  
What's more to the point . . . it has an all-new engine—mightiest in all SPECIAL history.  
It has an all-new Dynaflo\* performance — a new Variable Pitch Dynaflo with instant response.  
And there's magic in its new chassis design — which gives new road-hugging lowness with full ground clearance — and still keeps plenty of headroom, hiproom, legroom and footroom. What all this does for your ride and comfort is something you can learn only at the wheel.  
Try it, at your Buick dealer's—drive the big-buy big car of 1957.

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century— optional at modest extra cost on the Special.

## No Progress Made in Girl Kidnap Case

BELLMAN, N.J. (AP) — Police said today they were working on several leads but that there were no hard developments in their search for little Mary Jane Barker, believed to have been kidnapped.

The 4-year-old child disappeared last Monday morning while she was at play in a yard near her home in this southern New Jersey town of about 5,500.

The parents, Mr. and Mrs. Frank Barker, appealed yesterday for her safe return.

The distraught mother asked newsmen to give the widest circulation to her request that Mary Jane "be left at any church."

"We promise from the bottom of our hearts to do all that we can to keep you from harm," the mother said, addressing herself to the one she feels sure abducted the youngest of her three children.

The father, a department store radio and TV manager, joined in the prayerful appeal.

The grief of the Barkers was especially acute yesterday. It was Mary Jane's birthday — her fourth. And today is the father's birthday. It was to have been a fine week, with a joint celebration.

Mrs. Barker, weeping, emphasized there is still time to get the child home for a celebration.

"Won't you please give us the only birthday present we want?" she pleaded. "Won't you please bring Putney back?"

Police said they could find no ready motive for kidnapping.

No ransom note has been received; no demand of any kind has been made.

**Dalton H. Brown**

Dalton H. Brown, 76, died at the Sedalia Rest Home at 2:30 p.m. Wednesday. He had been in failing health for the past four years and had been a patient at the rest home for the past four weeks.

Mr. Brown was born in White County, Ill., June 1, 1880, the son of the late Rev. Archie and Lucy Potter Brown. The family moved to Indiana when he was a small child and his boyhood and early life was spent in Indiana. He came to Sedalia in 1916. He was employed as a street car motorman for a number of years and was later employed at the City Light and Traction Co. in other capacities.

After his retirement he resided at the Lake of the Ozarks for ten years. When his health failed he returned to Sedalia four years ago.

Mr. Brown was married at Branch, Ind., in 1900 to Miss Adeline Speer, who died Oct. 8, 1921.

He was a member of Granite Lodge 272, A. F. and A. M. of Sedalia.

He is survived by one daughter, Mrs. James Hosford, Green Ridge; five sons, Robert D. Brown of Route 3, Sedalia, Hubert Brown, Archie Brown and Lemuel Brown, all of Napa, Calif., and George E. Brown of Saratoga, Calif.; one brother, Lemuel Brown, Ft. Branch, Ind.; and 14 grandchildren.

at the intersection or had just made his last call.

The car went straight ahead and crashed head-on into a tree. The windshield was broken where he was thrown against it and the steering wheel rim was smashed. The front end of the car was demolished.

Meyers called his office by radio and summoned the Ewing ambulance and also had his operator notify the police and Highway Patrol.

Trooper Pete Stohr, who made the investigation, said no skid marks were on the road which would indicate an effort to stop. He said he was under the impression the brakes may have failed.

Meyers said the brakes had been tightened up only a few days ago had been working during the evening.

Collins was taken to Bothwell Hospital, where Dr. C. Gordon Stauffer, coroner, viewed the body. He said an inquest was not necessary.

Mr. Collins was born at Sedalia, Oct. 15, 1911, son of A. G. Collins and the late Frances Smith Collins. He lived practically all of his life in Sedalia.

He was preceded in death by his wife, the former Nita J. Sands.

He is survived by one son, Lawrence Ellis Collins; his father, A. G. Collins, 1107 East Third; five sisters, Mrs. R. W. Pummill, Mrs. B. R. Odell, Mrs. Clyde Forth, Mrs. Velson Dabner all of Sedalia, and Mrs. M. O. Foxworthy, Detroit, Michigan.

### Wilson Says Testing Of Nuclear Missiles Will Be Continued

WASHINGTON (AP) — Secretary of Defense Wilson says that "for the time being" testing "will go forward" on both the Army's Jupiter intermediate range ballistic missile and the Air Force's Thor IRBM.

Wilson said this last night in a statement intended to clarify his Tuesday news conference remark that the Jupiter project in effect "is canceled."

"Selection of the missile to be employed will be made at a later date," Wilson said.

The Army and Air Force have been racing to develop an operational missile capable of carrying a nuclear warhead to targets 1,500 miles away. The Army has conducted one successful test firing of the Jupiter. The Air Force's first test of its Thor failed.

## S-C Students Will Collect Used Clothing

Students of Smith-Cotton are getting new homework. School Principal F. L. Drake said today, "Our students will be collecting used clothing for ragged little boys and girls every day next week. This is our contribution to Save the Children Federation's Bundle Drive."

The principal explained, "Save the Children Federation is an international agency helping youngsters both in this country and overseas. These Bundle Drives have been held for the past 14 years in schools throughout the United States. This is the first time that our Student Council has decided to sponsor the drive in Smith-Cotton."

Last year Bundle Drives amassed more than 800 tons of clothing and benefitted thousands of persons in need. Last winter—Europe's worst of the century—the Federation rushed 50,000 pounds of warm garments to France, Greece, and Italy. The Federation last year also made emergency shipments to earthquake and hurricane victims in Greece and Mexico. Over the past four years, the Federation has sent more than 2,000,000 pounds to Korea alone.

Save the Children Federation provides welfare clothing to destitute families on the Navajo Reservation and in the Southern Appalachian Mountains of the United States. Proud mountaineer families with low incomes can for a nominal cost, outfit themselves in their local S-C clothing stores.

Children's clothing is especially wanted, but infant and adult wear are also welcomed. The principal urged donations of long-sleeved sweaters, shirts, pants, dungarees, overalls, hats, knit caps, cotton dresses, underwear, socks, pajamas, cloth coats, sheets, blankets, diapers, baby shirts, booties, rubbers, overshoes, and work shoes. Donations must be clean, wearable, and mended if necessary.

## Mrs. Mense Is Host To the Kola Club

The Kola Club met all day at the home of Mrs. Francis Mense with Mrs. Edwin Bremer assisting.

Mrs. Leonard Siegel called the meeting to order. Mrs. Edwin Bremer led the group in singing the club song. Nine members answered roll call by naming a fabric and how to care for it. A get well card was sent to Mrs. Ed Doebner. Mrs. C. E. Williamson, Mrs. Dewey Grider and Mrs. Francis Mense were appointed to arrange a selection for the Music Festival which will be held in April. Mrs. Ray Baughman announced a Valentine dance would be given by the Florence PTA. The club voted to help the PTA in purchasing new window shades for the schoolhouse.

Mrs. Roy Miller and Mrs. Paul Duvel gave a demonstration on "How to Apply Makeup, hair styles and collar styles for clothing, which are most becoming."

A homemade Valentine exchange was enjoyed by all. Games were played and secret pal gifts were exchanged.

The next meeting will be all day at the home of Mrs. Leonard Siegel on March 13.

## Will Receive Bombing Trophy

The 340th Bombardment Wing of Whiteman AFB will hold formal parade and review ceremonies Saturday morning at 10 a.m. on the base flight line, in which over 2,000 Whiteman Airmen and Officers will pass in review, led by the Strategic Air Command Band from Offutt AFB, Neb.

During the ceremonies, Mrs. Cornelia Roberts, wife of the late Brig. Gen. Jack Roberts, will present the trophy named in honor of her husband to the 340th Bomb Wing. The wing recently gained permanent possession of the Brig. Gen. Jack Roberts Trophy by topping all other Eighth Force bases in three successive bomber stream missions.

Bomber stream missions, termed "Pacesetter" missions, are designed to test the bombing ability and navigation accuracy of Eighth Air Force crews while performing simulated "bomb" drops on specified targets near American cities.

The 40-inch silver oxidized trophy which Mrs. Roberts will present to the Wing was named in honor of her husband, the late Brig. Gen. Jack Roberts who was Eighth Air Force chief of staff from September, 1953, until his untimely death in June, 1955. It signifies outstanding accomplishment among all Eighth Air Force bombardment wings in periodic bombing evaluation missions.

Col. A. J. Beck, wing commander, has extended an invitation to the public for attendance at the formal parade and review ceremonies. Visitors will be directed to the Flight Line by Air Police on duty at the gates.

## Milk Boycott Seems Losing Momentum

NEW YORK (U) — A producers' milk price boycott over a tristate area appears to be losing momentum as a result of state police and court action and a lack of backing by big dairy farmer groups.

Developments yesterday put a damper on the four-day-old stoppage of milk supplies called by the Tristate Master Dairy Farmers' Guild, an organization of about 3,500 producers. The guild seeks the cooperation of the 44,500 producers in New York, Pennsylvania and New Jersey. The federal milk marketing administrator said 5,600 producers are taking part and 58 out of 381 milk processing plants have been affected.

State police in the three states put a check on violence with emergency patrols protecting milk plants and their truck drivers.

In Allegany, N.Y., a local official of the striking dairymen's organization predicted the strike in Western New York would be over by today.

"When the troopers moved in and escorted the trucks into the plants, that just about cleaned us up," he said.

In Albany, N.Y. last night the Dairy Farmers of America — which claims a membership of more than 3,000 farmers in New York, New Hampshire and Vermont — voted to stay out of the current milk stoppage.

At Syracuse, N.Y., Edmund F. Cooke, general manager of an 28,000-member milk cooperative, said intimidation was the main reason for the withholding of milk by farmers. Cooke, of the Mutual Federation of Independent Cooperatives, said in a statement: "As near as we can ascertain, there is no spontaneous movement on the part of producers to strike."

## Sedalia's Fire Protection

Nothing but approbation can come from the people of Missouri over the fast footwork of Governor James T. Blair and the Missouri Legislature in their efforts to set up safety standards for nursing homes following the disastrous Warrenton fire which cost 72 lives.

Broad powers are given the State Health Division in a new bill passed 31-0 in the Senate. No impediment to this measure to improve conditions in the homes for the aged is expected to arise in the House. The governor endorsed the bill, provisions of which will go into immediate effect upon his signature.

There is little doubt that the governor's fast action program is necessary. That is why he is calling upon local fire departments and health officials to make immediate inspections to get rules of safety into effect now.

Dawdling over methods of procedure and entwining the latter in red tape is not to be countenanced. Even under present laws the governor has ample authority to press for action. Passive resistance is likely to put enforcement agencies on the spot and they are aware of this. A calamitous fire is likely to break out anywhere, any time. And those who have the responsibility of enforcing fire and safety provisions had better exercise their legal prerogative, even under the present inadequate laws,

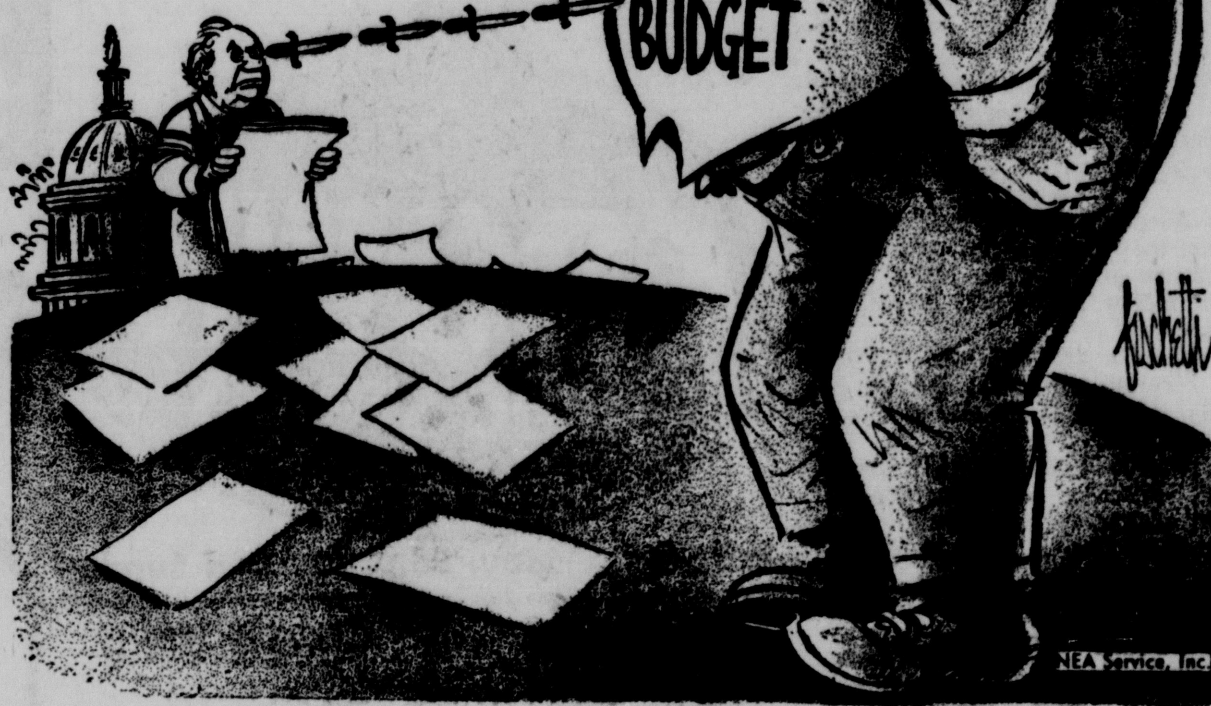

rather than be accused later as an accessory to manslaughter because of negligence in a future disaster.

Sedalia has been mighty lucky for many years escaping catastrophic fires and loss of human life. Great dependence has been placed on our efficient fire departments. But Sedalia has been growing not only in population but in hundreds of new dwellings and business houses.

From the standpoint of fire protection, Sedalia could be forcing its luck. Opinion may prevail Sedalia has sufficient fire fighting equipment kept in good order ready to respond with a complement of 25 men split up to work around the clock. On the other hand while public interest is aroused over fire safety measures in nursing homes perhaps it would be a good idea to review and re-appraise Sedalia's fire protection potential.

Should Sedalia have a third fire station to serve the southwest area? And should Sedalia have a full time fire inspector? Does Sedalia believe 25 men can do all the fire fighting effectively?

The subject is timely for review by City Council if their re-appraisal of the Sedalia situation only develops reassurance that our community is already adequately protected and adequately inspected, as present laws dictate and which state officials are now beginning to press for enforcement.

## Wilson's Frankness Is Refreshing

By JAMES MARLOW  
Associated Press News Analyst

WASHINGTON (AP)—Secretary of Defense Wilson doesn't talk too much. He talks little. But what he says sometimes makes people more upset than if they had just been buzzed by a comet.

No one in President Eisenhower's Cabinet, except perhaps Secretary of State Dulles who talks much more frequently, can match Wilson in making people angry.

But Wilson's frankness is like a fresh breeze in this town where high government officials pick their way through the English language like a night watchman making his rounds in an egg factory.

This week a few words by Wilson, apparently not well chosen, had the Army running after him with an eraser. This week he told a news conference the Army's Jupiter missile program "is canceled."

Yesterday the Army issued a statement saying no final decision had been made on Jupiter and Wilson later confirmed that the decision "will be made at a later date."

The day before, top Air Force officials tried to explain to senators a cutback in projected Air Force expansion. They said that at one time they thought the Rus-

sians were outproducing the United States in heavy jet bombers but now the estimates have been changed.

Wilson, asked about this at his news conference, said re-evaluation of intelligence is customary made this time of year. This happens to be the time of year when Wilson's department tells Congress what it needs and why.

His statement made some eyebrows go up. Did he mean the Defense Department puts its intelligence reports in a suitcase until this time of year and then starts to think about them? He probably meant no such thing.

This was all minor league stuff compared with the fire he started earlier this year when he said the National Guard was a refuge for draft dodgers during the Korean War.

Eisenhower later called the remark "unwise." Mrs. Wilson promptly chided Eisenhower, saying the slap at her husband was "uncalled for."

Meanwhile, Wilson, who had

been called to the White House, made this statement to reporters who asked him for a statement when he came out: "This is not my dunghill. Anything to be announced, somebody else ought to announce."

Wilson may regret — because it's been thrown at him so often — that he once said back in 1953 when he was telling senators why he ought to be secretary:

"For years I thought what was good for the country was good for General Motors."

But the statement which got him into the hottest water was made Oct. 11, 1954, in the final month of a congressional election campaign. Discussing unemployment with reporters in Detroit, he said:

"I've got a lot of sympathy for people where a sudden change catches them. But — I've always liked bird-dogs better than kennel-fed dogs myself. You know, one that will get out and hunt for his food rather than sit on his fanny and yell."

### Dr. Jordan Says

## Diabetic Or Crippled Child Can Experience Camp Joys

By EDWIN P. JORDAN, M.D.

It is impossible to exaggerate the benefits which have been brought by the establishment of summer camps for youngsters with diabetes. There are a considerable number of such camps in the United States and Canada. Well over 2,000 children attend these camps each summer.

Children with diabetes can be, and usually are, entirely normal in every respect except for the results of diabetes itself. As long as this condition is under control by diet, insulin and other management they are frequently able to participate in many of the same activities as other children. However, they must have special attention to diet and some of them must receive insulin by injection. Therefore the regular summer camps are unsuited to most of these youngsters.

These camps for diabetic children, however, with the medical management which can be provided, permit many youngsters to have camping experiences similar to that of their unhampered schoolmates.

Special care must be provided and this makes such camps more expensive. Consequently most have received gifts from foundations, service clubs, church groups, professional business organizations and individuals.

Favorite activities at these camps include swimming and water sports, tennis, volleyball, basketball, baseball, archery, riflery, dancing, singing, arts and crafts, and dramatics.

Some camps have found it an interesting advantage to join the American Archery and American Rifle Association in order to give proper and official credits to those who become proficient. Also standard examinations and official credits may be given in swimming and diving, according to standards set up by the American Red Cross.

A list of camps for diabetic children is available from the American Diabetic Association, 11 West Forty-second St., New York 36, N.Y.

But this is not all. Camping experience can now be provided for more and more children handicapped in other ways. There are camps for those who are partially crippled and for others who are unable to participate completely

in the activities of regular summer camps.

Most of these camps are not confined to the children of those who can afford the full fee but, through the generosity of the many who have contributed, there are numerous partial and complete scholarships for deserving children.

In addition to the American Diabetes Association, I would refer interested parents to the publication entitled "Guide to Standards for Resident Camps for Crippled Children," published by the National Society for Crippled Children and Adults, 11 South LaSalle St., Chicago 3, Ill. This organization can supply information on camps for crippled children located in many parts of the continent. It works in cooperation with the American Camping Association, 343 South Dearborn St., Chicago.

### Sees Better Relations Between Democrat Senators and Dulles

WASHINGTON (AP)—Sen. Mansfield (D-Mont) said today there has been a "marked turn for the better" in relations between Secretary of State Dulles and some Democratic senators who have complained of a lack of bipartisanship in foreign policy.

Mansfield, assistant Senate Democratic leader, attributed this in part to daily telephone calls Dulles has been making to Sen. Lyndon B. Johnson of Texas, the majority leader, to keep Johnson abreast of developments in the Israel-Egypt crisis.

The Montana senator added in an interview that due to the efforts of Dulles, Johnson and Sen. Knowland of California, the Republican leader, "a better feeling exists between the two branches of government and the prospects for a better sense of responsible cooperation may well be one of the fortunate aspects of the unfortunate happenings of the last few weeks."

### Senate Has a Slowdown

## Uses Device to Smoke Out Administration on Sanctions

By JOSEPH A. DEAR  
Of Our Washington Bureau  
WASHINGTON—The Senate has resorted to the slowdown, a clumsy but fairly effective weapon, in its duel with the administration on the issue of foreign policy.

The opening week of debate on Ike's plan for the Mideast was marked by very little debate and practically no action. The Senators simply wanted to smoke out the administration on the question of sanctions against Israel before acting on the Mideast resolution.

This tactic caused no end of trouble for the administration. A flat promise of no sanctions, which might have pleased many Senators, would have taken most of the pressure off Israel to comply with United Nations withdrawal resolutions. But a flat statement that Israel could expect the United States to increase its pressure unless U.N. resolutions were obeyed might have sparked a revolt on Capitol Hill. At the moment, the administration is conducting simul-

taneous negotiations with several touchy parties, among them the Senate and Israel.

Two unfortunate conclusions cannot be escaped: Verbal assurances of the administration don't carry much weight on Capitol Hill. Nor do they carry much weight with the Israelis.

Charles Edmundson, a former official of United States Information Agency who was discharged from his post in Korea for publicly criticizing government foreign policy, says at least two of the ten Americans held by the Chinese Reds were employees of the Central Intelligence Agency.

In an appearance on College News Conference, a Sunday television program of ABC, Edmundson, after identifying the CIA agents by name, suggested the State Department banned newsmen from Red China to conceal the past activities of some of the prisoners. Edmundson is critical of the travel ban.

Just what Edmundson thought to gain for himself or anyone else in making this charge is difficult to imagine. Many reporters in Washington are quite familiar with various aspects of the problem raised by the continued detention of American prisoners by the Chinese.

Assuming Edmundson is correct, and assuming that the Chicomos have known the score all along, his TV appearance may complicate the problem of freeing the prisoners without affecting the ban on travel to Red China at all.

In fact, Edmundson's charge might well provide the Chicomos with an excuse for additional atrocities.

Washington has the reputation of consuming more alcoholic beverages than any other American city. But it turns out that D.C. is a pretty sober town, after all.

It's San Francisco that needs the attention of temperance organizations. Frisco has the highest alcoholism rate of any American city (4,190 per 100,000), according to the Quarterly Journal of Studies on Alcohol of Applied Physiology of Yale.

In fact, Frisco is in a class by itself. Sacramento, another California town, is in second place, and its rate is 2,780 per 100,000. Washington is well down the list, 25th with a rate of 1,550.

## Thinking It Over

By Robert L. Dieffenbacher, D.D.

Getting acquainted is a process which requires an exchange of names and ideas. We want to know what people do, where they live, and what they believe. Finally we want to know how they act and whether they "practice what they preach."

We may hide a lot of our experiences, our habits and our feelings, but there is much more to becoming acquainted than merely making a good first impression. Friendship requires sympathetic understanding, a willingness to give as well as take, and a helpfulness even when effort is required.

Those who get acquainted with God find His friendship more satisfying than even the best of human friendship. He takes us at face value. We do not have to hide our secret sins from Him. He forgives our faults and helps us overcome our weaknesses. He is constant and completely loving.

### Ruth Millett Says

## Aged Lothario Forfeits Wallet Along With Heart

Memo to men who become widowers in their late middle years: Better look around for a wife as old as you are or even a few years older, instead of a woman years younger.

That advice comes from a woman who has worked for years in a convalescent home. She has seen what frequently happens to the middle-aged man who hasn't enough sense to marry a woman near his own age, one who needs his companionship as much as he needs hers, and who is willing to make a good home for him in his late years.

She says: "A lot of widowers in the late 50s and 60s are egotistical and about as foolishly romantic as a 17-year-old."

"Instead of looking for a second wife among widows their own age—they decide they want a young wife."

"If they have some money or can convince a younger woman that they are well-fixed, they can always find one who is tired of working, wants to be supported, wants a car, nice clothes, etc., and is willing to kid the older man along in his belief that he is as young as he thinks he is and twice as attractive."

"But young women don't often love older men and when the money goes, so does the pretense of love. And when he hits the 70s and needs to be looked after, he winds up in a nursing home."

"I've heard the same old story so many times, it amazes me that men can be so dumb."

Well there it is, men. It's not a very romantic picture and not one you will enjoy facing.

But before you decide that even though you are pushing 60 you are just as young as most men of 40, and what you want is a young wife maybe you had better think again.

There's one fact you can't escape. In 10 years a man of 40 will be 50. And in 10 years a man of 60 will be 70.

## FDR, Jr. Backs Off From Trujillo

By DREW PEARSON

WASHINGTON—Franklin D. Roosevelt Jr. has decided to give up his \$60,000 contract as lobbyist of bloody Dictator Trujillo of the Dominican Republic. Trujillo's latest involvement in the disappearance of Jerry Murphy, the pilot who reputedly spirited Columbia Professor Jesus de Galindez out of the U.S.A., was too much for young Roosevelt.

However, he's having trouble with his lobbying partner, Charles Patrick, who makes a specialty of lobbying for dictators. He draws around \$75,000 a year from Spain.

Roosevelt informed Congressman Charles Porter of Oregon that he was not renewing his contract with Trujillo. But when Clark's office was asked about this, Clark said he knew of no change, later called Congressman Porter's office to say there had been no change in his and Roosevelt's contract with Trujillo.

Meanwhile, Congressman Porter has written letters to his GOP colleague, Congresswoman Katharine St. George of New York, to Col. Carroll Cone, vice-president of Pan American Airways, and to Father Joseph F. Thorne, who has been active around Congress on behalf of both Trujillo and Franco, cautioning them about the medals they are getting from Trujillo. Porter has suggested that they might want to read a speech he is delivering regarding the murders of the Dominican Republic before they accept or keep their medals.

### Tennessee Teamsters

Last July John Seigenthaler, ace reporter for the Nashville Tennessean, telephoned Dave Leck, czar of the Teamsters Union, to tell him that two of his Tennessee Teamster bosses, local 317, had police records and were up to the ears in local shenanigans. He also relayed the same message to Jim Hoffa, notorious Teamster czar for the Midwest states.

Seigenthaler has yet to get an answer from either. Meanwhile, Teamster activities in Tennessee are following a pattern which AFL-CIO President George Meany and most of the labor movement sincerely want to clean up, but which the boss of the world's biggest union condones.

### Guest Editorial—

SHREVEPORT (La.) TIMES: Why a \$1,500 Car Costs \$2,000. Sometimes people ask, Why can't automobile manufacturers make a good car to sell for about \$1,500?

Manufacturers—several of them — do make good cars that, so far as profit and cost of construction are concerned, could sell for around \$1,500.

But there is a little matter of approximately \$150 on each car of this type for various kinds of taxes on materials, parts and their transportation.

Then, there is another matter of approximately \$150 in corporation income and other taxes paid by the manufacturer.

Next comes an average estimated \$34.81 property and similar taxes paid by dealers.

All of this adds up to very close to \$500, making the \$1,500 car approximately a \$2,000 car so far as the purchaser is concerned—all of the figures cited coming from data compiled by the automobile industry.

Oh, yes, there is also the state sales tax. This is not on the original \$1,500 alone, but on the total price of close to \$2,000 and thus actually becomes a tax on taxes as well as a tax on the car to a certain extent. It will add about \$40 more to the total cost.

So, there's your \$1,500 car—but it costs more than \$2,000. And that's true in just about everything a person buys today. The production and profit cost between the manufacturer and the consumer is hiked a good 30 to 40 per cent—in most cases—by various forms of taxes either on the product itself or those who produce it, and in either case the consumer pays the bill in the end.

And, don't forget the minute you start driving this \$1,500 car which cost \$2,000, you've got a tax on gas, a tax on oil, a driver's license tax, annual car tax, etc.

agent, has had numerous arrests for drunkenness and assault, but somehow witnesses always seem to be afraid to appear against him. In 1953 he was arrested for beating up Wallace Rasmussen, general manager of the Meadowgold Ice Cream Company. Rasmussen was all hot to press charges. But when Smith went to trial, Rasmussen refused to take the witness stand. Teamsters' power was too great.

On Oct. 30, 1955, Smith was arrested for assaulting Frank Allen, manager of the Terminal Transport Company. Allen hired an attorney to make sure the case was prosecuted. But on the morning the case came up in court the lawyer announced that he was most embarrassed, but Allen would not testify. Again the power of the Teamsters was too great.

Recently, however, thanks to a campaign by the Nashville Tennessean, the climate has changed. Teamsters Perry H. Canaday and C. B. Richardson have been convicted of murder, and other Teamsters have been fined for contempt of court. Messrs. Beck and Hoffa, however, did nothing to clean up.

### Why the Russian Arms?

When the fast-moving Israeli Army blitzed into Egypt last fall, it found the most amazing cache of arms accumulated any place since World War II. Russian tanks, artillery, half-tracks, ammunition of every kind and description were spread out over the Sinai desert. The store of arms was so vast and varied that unquestionably it was to be used not only as an Egyptian base for attacking Israel, but for some kind of Russian drive to take over the Near East.

The Israeli army wiped out or captured this arsenal.

One very important point to be considered in any UN debate for the punishment of Israel is why this stock of arms was allowed to accumulate and whether its accumulation was not in fact an act of aggression against Israel. If, for instance, Russia stored arms 25 miles across the Mexican border from El Paso, the citizens of Texas and probably the rest of the United States would have done exactly what the Israelis did.

It's also important to note that these arms didn't get to the Egyptian-Israeli border overnight. The United States first got word they were coming one year and four months earlier—June 1955. One month later, the President with Bulganin and Khrushchev at Geneva. Yet nothing was done during the smiles of Geneva to stop arms shipments obviously aimed at war.

Two months later, Secretary Dulles stopped a move by Secretary of Agriculture Benson to dump surplus American cotton abroad, because, Dulles said, it would hurt America's cotton-growing friends such as Egypt.

A few months later, Dulles began to urge Nasser to accept money for the Aswan Dam. Nasser played coy, said he might get the money from Russia. Dulles urged, almost begged him to take the money. Meanwhile, U.S. intelligence agents reported and American newspapers published that Russian pilots were pouring into Egypt, that Russian armaments were training Egyptian pilots, that Russian technicians were training Egyptian tankmen.

All this time not a thing was done by the United States to stop the arms flow, which was sure to lead to war.

Note 1—These arms, incidentally, were only 25 miles from the home of Prime Minister Ben-Gurion. Egyptian jet bases were less than 30 minutes bombardment time away from Tel Aviv.

Note 2—Harry Truman told me on Feb. 21, 1956, eight months before the Israeli attack: "If I were in the White House I'd use the U.S. Sixth Fleet to stop those arms before they even got through the Bosphorus."

# Enter Second Round Play In State Class 'M' Regional

## Ashland, Northwestern End 1st Round Play With Wins; New Franklin In 3rd Round

Ashland and Northwestern joined the first round basketball victors Wednesday night in the State Class "M" Regional tournament at Tipton completing first round play with easy decisions, while New Franklin became the first to grab a second round win.

Ashland turned the trick in out-lying Keytesville in the first round with a sharp 63-34 conquest.

Pantey and White combined their efforts to lead Ashland's victory drive. Pantey rolled up 19 points with White close behind at 18 total.

## His One Field Goal Gives Yale a Win

Don Bab, a 6-4 senior, had one field goal try in last night's Ivy League basketball thriller between Yale and Dartmouth.

He dropped it in just as the final buzzer sounded, giving Yale the two points it needed to nip Dartmouth 57-56 and step into sole possession of first place in the Ivy Scramble with a 9-2 record. Dartmouth slipped to second at 8-3.

Other leading college lights had easier times. Seattle, sixth-ranked in the Associated Press Weekly poll, trampled Portland for the second night in a row, this time by 95-81. Eighth-ranked Louisville nipped DePaul 97-76. Dayton, bound for the National Invitation Tournament, found Toledo no obstacle, winning 90-47. Another NIT selection, Xavier of Ohio, downed Western Kentucky 77-71.

But Syracuse, an NCAA major college at-large tournament selection, stumbled against Niagara, losing 79-74.

Bab entered the Yale game with nine minutes remaining. He took an out-of-bounds pass from Larry Downs, wheeled and hit a 23-foot jump shot for the clincher.

In other Ivy League action, Chet Forte and his Columbia Lions smothered Cornell 80-62 and Harvard bumped Princeton 65-56. Forte garnered 33 points to raise his career total to 1,529 points. This raised his per-game average to 29.14 but left him still in fifth place among the nation's leading scorers.

In the Atlantic Coast Conference, Duke boosted its home court record to eight victories without a loss by whipping Virginia 81-66.

In the Southern Conference, Virginia Tech toppled Virginia Military 82-70 to gain a second-place tie with Washington and Lee.

## Carol Heiss Will Try for Second Skating Title

COLORADO SPRINGS, Colo. —Uncle Sam's figure skating queen, youthful Carol Heiss, already holding a strong advantage, tonight goes after her second world women's singles skating title.

The 17-year-old lassie from Ozone Park, N. Y., and a teen-age couple from Canada who sometimes dream of new skating maneuvers, were tops in yesterday's program of the world figure skating championships.

Vivacious Miss Heiss, who won her first world title last year, was the unanimous winner of the compulsory figures division of the singles competition, the portion that counts 60 per cent toward the title.

The other 40 per cent comes tonight as the 20 girls from seven nations put on their free-skating exhibition.

Champion in pairs are Barbara Wagner, 18, and Robert Paul, 19, of Toronto, who have been skating together for five years and last month set their goal at the world title.

In addition to the women's competition, the program today includes the first action in men's singles, with the skaters performing the first three of six compulsory figures.

David Jenkins of Colorado Springs is favored to win the crown vacated by his brother, Hayes Alan. Top competition is expected from France's Alain Giletti, the European champion.

SLAM SESSION—Eddie Machen keeps the light bag rocking in a San Francisco gymnasium workout. Machen figures behind Hurricane Jackson as an opponent for Floyd Patterson.

## Giants Seek Replacement For Catcher

The Associated Press  
Baseball today faced a long list of problems a day before the opening of spring training — and chief among them was a catcher for the New York Giants.

Staggered by the sudden ending of Bill Sarni's active career because of a heart attack, the Giants were appraising a list of available receivers of major league caliber to bolster their weak backstopping corps. Cincinnati's hard-hitting Forrest (Smoky) Burgess was reported to be the No. 1 choice.

Other major league clubs, including the world champion New York Yankees, were faced with an annual problem — unsigned stars.

Sarni's four-year major league career was ended yesterday when doctors said the 29-year-old catcher had suffered a heart attack in Monday's opening workout.

Giant President Horace Stoneham said that Sarni likely will be kept on as a coach to insure his getting a five-year pension. He is two thirds of a year shy of qualifying.

Burgess—often traded verbally, but still a Redleg—was being sought by New York as a first-string catcher. The Giants now are down to two, the veteran New Westrum and Bob Schmidt, a rookie from Dallas of the Texas League. Most often mentioned as becoming a Redleg is pitcher Ruben Gomez.

The Yankees signed Tommy Byrne, the veteran left-hander, and infielder Bill Skowron — but Don Larsen remained unsigned. He is reportedly seeking \$23,000, about a 50 per cent raise over his 1956 salary.

The Boston Red Sox have five headhaches — outfielders Jim Piersall and Gene Stephens, infielders Ted Lepcio and Billy Klaus and catcher Sammy White. Ted Williams and Mickey Vernon reported to camp and pitcher Rudy Marin agreed to terms.

Philadelphia collared fleet Richie Ashburn. Pitcher Art Houtteman signed with the Cleveland Indians.

## LaMonte-Hubbard Tilt Not a Varsity Contest

A LaMonte-Hubbard basketball game published in Wednesday's Democrat inadvertently mentioned the two teams as high school squads. On the contrary, they were alumni teams from the two schools, LaMonte's alumni winning an 83-71 decision. Hubbard High's varsity had already closed its basketball season.

## Big One-Two Punch Invades Mississippi

STATE COLLEGE, Miss. — The greatest one-two punch in college basketball lands its final blows tonight when surprising Mississippi State invades Mississippi for the game that could settle the national scoring championship.

State staggered 16 of 24 opponents with the spectacular scoring power of senior guard Jim Ashmore and sophomore forward Bailey Howell, who have combined to average 53.7 points per game.

But the fearsome pair breaks up after tonight's season-ending game with the graduation of Ashmore, a set shot and drive-in artist who has scored 1,881 points for State. He ranked sixth nationally in the latest figures with an average of 28 points per game this year.

State was picked to finish near the bottom of the Southeastern Conference this year, with Ashmore's one-man show not enough to overcome the multipronged defenses of other teams.

Then Coach James (Babe) McCarthy plucked Howell from the talent graduating from the freshman team and promptly set the SEC on its ear.

Between them, Howell and Ashmore have broken every school basketball record. Ashmore has 257 field goals this year, breaking the SEC mark of 251 set by Bob Pettit of Louisiana State. He is 34 points from Pettit's regular season record of 705 points.

## Wayne Morris Wants to End Career Slump

By BOB THOMAS  
HOLLYWOOD — Wayne Morris is getting set to play a deep-dyed heavy, and he hopes that it will end a three-year frost on his Hollywood career.

Morris leaves soon for Munich where he'll appear with Kirk Douglas, Ralph Meeker and Adolphe Menjou in "Paths of Glory" for Douglas's Byrna Productions. It's the story of the French army in World War I, and Morris plays a cowardly lieutenant.

It appears he is taking his new role seriously. He is grizzled with a beard of several days' growth. "A lot of the men wore beards in that period," he explained. "So they told members of the cast to grow 'em, just in case they're needed."

Wayne is more than eager to cooperate. He's counting on the part to revive his career.

"I'm 43 now and I've got to make the transition from leading men into characters," he said. "This might do it for me."

He spoke frankly about his career and admitted it had not been flourishing in recent years. He's a native Angeleno and was signed by Warners in 1935 a month before he graduated from the Pasadena Playhouse.

He was hailed as a sensation when he appeared as "Kid Galahad" with Bette Davis. He was one of Warners' busiest actors in the '30s.

"I went into the Naval Air Corps a year before the war began," he said, "and I didn't get out until 1945. That was a big chunk out of my career."

"When I came back, I signed with Warners again. Then I didn't do a picture for 13 months. I was six years off the screen!"

After four years, he left Warners and signed with Allied Artists. "It was a sweet deal," he remarked. "I got good money and made four pictures a year. Some of them gave me a percentage of the profits and I'm still getting checks from them."

"Despite all this, the Allied Artists deal wasn't good for me. The other producers pigeon-holed me as an Allied Artists actor and I couldn't get jobs in big pictures."

In the last three years, Wayne has been able to pick up some pictures in England and has been hosting an adventure show on local TV. He lives with his wife and his two daughters on an avocado ranch at Fallbrook, near San Diego, and keeps a small house here for use when he's working.

## Demonstration Given At 4-H Club Meeting

The W.W. 4-H Club met for its February meeting at the W.W. Community Center. Phillip Wayne Widel presided over the meeting. Marie Topel gave a talk on "Your Teeth Are Showing." Bobby Clemens demonstrated how to cut the tail off a lamb. Reports were given by all project leaders. They announced a meeting would be held within two weeks.

The club voted to hold a food sale in Booneville March 9, proceeds to be used at the Junior Fair. 4-H Sunday will be observed by the club at the Community Center May 26. Marie Topel led in two numbers and game leader, Karyl Wagner, conducted two games.

Hosts were Mr. and Mrs. Billy Clemens and two sons. Refreshments were served.

## College Band Will Give Concert Sunday

The 65-piece Central Missouri State College band will present a concert in Hendricks Hall, Sunday afternoon, March 3 beginning at 3 o'clock. The public is invited to attend. Prof. Donald Braatz, director said.

The Sunday afternoon concert will include ten numbers, one of which features Edith Stalling of Wellington, as English horn soloist.

A quartet of German fanfare bugle players will also be a feature. The quartet includes William Grace of Concordia; Don Johnson, Clinton; Jay Scammon, Tarkio; and Kay Lewis of Holden.

The program includes selections by Rimsky-Korsakov, Bach, Don Gillis, Tschalkowsky, Bowles, Rodgers, Cailliet, and Darcy.

## Desi, Lucille Want Change In Program

By CHARLES MERCER  
NEW YORK — It now seems highly probable that "I Love Lucy" (CBS-TV, Mondays, 9 p.m., EST) will not be seen in its present weekly format next season. The only people who are satisfied with it are the sponsors and several million regular viewers.

Lucille Ball and Desi Arnaz want out. CBS appears to be willing to go along with their wish. Instead of the present half-hour weekly filmed show there probably will be eight or ten hour-long Lucy shows, with a variety format, next season.

"I Love Lucy" has consistently been rated as having one of TV's largest audiences for six years. Rating figures show that the program has lost its largest audience status to opposing programs only three times since 1951.

You cannot blame Miss Ball and Arnaz for wanting to give up the program. A weekly show is a frightful grind. Their West Coast producing firm, Desilu, is highly successful; they have made and are making pots of money from several TV programs. But it would be unfair to them, in the view of this corner, to put the matter merely on the basis of money.

They are shrewd business people. But they also are a highly talented comedienne and comedian with an exquisite sense of timing. It is, in fact, their sense of timing that has kept the show in its eminent audience spot. Their scripts always are neatly constructed little items, but in humorous content they have been ranging from mediocre to pretty dreadful.

This fact has not noticeably affected the sizes of their audiences, however. The continued popularity of the program probably constitutes a television law: the law of protracted viewing habit by the hard core of unselective viewers. When and if "I Love Lucy" goes off the home screen, it does not mean that Lucy and Desi are quitting television. They merely want to do something different, something more challenging. And that's pleasant to see in any performer. Here's betting they can accomplish almost anything they wish.

Preventative  
DETROIT — Deciding that the dog bite is inevitable, Detroit's 2,500 mailmen are going to grin and bear it. They've used candy, water pistols and even night sticks to discourage biting dogs, all to no avail. Now, says an official, all postmen will get shots to prevent infections from dog bites.

## Price Tag on Big Diamond May Be Mark of Optimism

By HAL BOYLE  
NEW YORK — How would you go about selling a two million dollar diamond?  
At the moment the only man alive who has this problem — at least publicly — is Harry Winston.

Out of a dull 426-carat stone scuffed from the earth of South Africa he has pared "Miss Nameless," a 128 1/4-carat tear-shaped diamond which he says has no equal anywhere in the world for purity and brilliance.

So he has hung a price tag of two million dollars on this shiny bauble. It weighs less than an ounce—so light that even George throw it across the Rappahannock in the middle of a drought.

## County Home Agent Gives Demonstration

The Home Builders' Extension Club of Windsor met at the home of Mrs. Joe Finks for the February meeting. Roll call was answered with "One way that I plan work, that helps me."

The club voted to donate \$5.00 to the Polio Fund. Mrs. Ben Lea read Mrs. Katherine Zimmerman's letter. Mrs. Yount read a letter from Miss Suess, also one of thanks from the Girl Scouts for the use of leather craft tools. It was decided that the club would have a call meeting and sew for Mercy Hospital.

Miss Suess gave a very interesting lesson and demonstration on "These Golden Years." Mrs. Geo. Ray gave a lesson on the Campbell-Harrison house for girls at Columbia.

Mrs. Jim Klinger's name was added to the list of members.

During the social hour the hostesses served refreshments to fourteen members and one visitor, Miss Suess, county home agent.

The March meeting will be with Mrs. Gilbert Allen.

## Two Are Held For Executing Six in East

HARTFORD, Conn. (AP)—Lantern-jawed Joseph L. Taborsky, who was freed in 1955 from a state prison death cell, and an ex-convict buddy were held today as the execution killers of six persons in petty cash holdups since Dec. 15.

State Police Commissioner John C. Kelly said one of the two confessed the killings yesterday. Kelly refused to say which one confessed "because our investigation is not yet completed."

The money taken in the holdups was little in contrast to the brutality of the slayings, State Police said.

In all the killings but one the victims were shot in the head. In two holdups, four victims were forced to kneel on the floor and shot in the heads. This is a method of execution used by the Chinese.

Taborsky, 33, who moved to Brooklyn, N.Y., after his release from prison, was convicted of killing a package store dealer in June 1951. The state's case was based on evidence given by Taborsky's brother, Albert, who admitted he drove the get-away car.

But Albert was adjudged insane in prison and Taborsky's appeal that the brother's testimony at the trial was groundless was upheld by the state Supreme Court. A new trial was ordered, but the state dropped prosecution because its only case rested with Albert. Taborsky went free after four years in a death cell.

These are the crimes which Kelly said the one ex-convict admitted:

Dec. 15 — Slaying of Edward Kurpewski, 30, and Daniel J. Janowski, 30, in a New Britain filling station.

Dec. 26 — Slaying of Samuel Cohn, 65, in an East Hartford package store.

Jan. 5 — Slaying of Mr. and Mrs. Bernard J. Speyer of Meriden in a North Haven shoe store.

Feb. 10 — Slaying of John Rosenthal, 68, in his Hartford drug store.

## Defeat Move for New Election In Japan

TOKYO (AP)—The lower house of the Japanese Diet (Parliament) voted 251-145 today to defeat a motion by the opposition Socialists calling for the dissolution of the House and new elections. The motion followed designation of Nobusuke Kishi as prime minister.

## Nixon Leaves For Good Will Trip to Nations

WASHINGTON (AP)—Vice President Nixon leaves today on a good will visit to eight African countries and Italy.

The 17,000-mile, 22-day flying tour is aimed at demonstrating the American government's increasing interest in Africa as a Western bulwark in the East-West struggle.

Nixon will serve as special White House envoy in visits to Morocco, the Gold Coast, Liberia, Uganda, Ethiopia, Sudan, Libya, Tunisia, and Italy.

Accompanied by Mrs. Nixon and a four-member official delegation, his main stop will be at the Gold Coast to attend March 6 ceremonies converting this British colony into the independent nation of Ghana. The Nixon party will spend four days in this all-Negro nation on Africa's West Coast.

Nixon plans shorter visits in each of the other nations for talks with government leaders. These talks will be directed mainly at discovering any possible irritants in relations with the United States.

Nixon is also anxious to make person-to-person contacts as he did on previous good will visits to Asia, Central America and South America.

The party's first official stop will be at Rabat in Morocco tomorrow. Nixon will begin his Gold Coast visit Sunday.

He is due to return to the capital March 21.

## Actor and Wife Will Co-star in Two Movies

HOLLYWOOD (AP)—Sir Laurence Olivier and his wife, actress Vivian Leigh, are in town for six days of conferences on two movies in which they will costar later this year.

Upon arrival yesterday, Olivier said Marilyn Monroe, with whom he did "The Prince and the Showgirl" in England, is "very easy to work with, but she was a very sick girl all the time, poor kid. I think she was suffering from exhaustion."

## To Organize First Atomic Support Units

WASHINGTON (AP)—The Army will organize its first two atomic support commands March 1, it was announced today.

One command, designated "Air Transportable," will be formed at Ft. Bragg, N.C. A Medium Atomic Support Command will be organized at Ft. Hood, Tex.

The Army had previously announced its intention to organize at least six atomic commands in line with its new concept for troop unit operations on nuclear warfare battlefields.

The Air Transportable Command will be organized around one battalion equipped with Honest John rockets which can fire either atomic or conventional explosive warheads.

The Medium Atomic Support Command will be considerably larger in men and missiles. It will be built around one battalion

equipped with Corporal guided missiles and a maximum of four Honest John battalions.

The Army plans to cut the number of its regular divisions from 20 to 18 in order to speed the formation of the atomic support commands. After the Army has gained experience with its new atomic commands, they will be deployed with larger area or Army commands, such as those in Europe.

## The Two Extremes

MOUNT STERLING, Ky. (AP)—Montgomery County High School closed Tuesday because of a water shortage in the city and nearly had to close yesterday because of a flood in its science room.

Someone opened the faucets while the water was off, then forgot to close them. When the water pressure was restored, basins overflowed and flooded the room.

## Woman Leaves \$50 Judge Wants Men

GREENSBURG, Pa. (AP)—Albert Booth, tax collector of Hempfield Township, reported yesterday a woman who hid her face came into his office, left an unmarked envelope containing \$50 and a note which read:

"For conscience money tax of 1956." Booth says there's no law per-

## To Hammer Quietly

BRIGHTON, Colo. (AP)—Dist. Judge Christian D. Stoner halted a murder trial yesterday and asked his bailiff to "tell those carpenters to pound quietly."

Two carpenters remodeling a room of the courthouse pondered the order and finally Clyde Tanner quipped:

"I have a rubber hammer I'll bring tomorrow."

The newly remodeled home of Mr. and Mrs. Walter Alexander was the meeting place of Georgetown Extension Club. This is an active club as they are community minded as well as working for their own club. A new stove has been added to their school and plans are to add additional storage space through the efforts of Extension Club cooperating with other community groups. The young homemakers in the club are responsible for one of the Young Homemakers classes being held in their community.

The Lovelace Extension Club is small in number but a busy group. Their recent project is making tea towels for the Campbell Harrison House in Columbia. This club can boast as being the only one having a member who is past 100 years of age. She is Mrs. Molly Potter, better known as Grandma Potter. She was present for this meeting which was held in the home of Mr. and Mrs. Walton Branstetter.

The home of Mr. and Mrs. Olyn Rugen was the meeting place of the Flat Creek Club. This is one of the large clubs in the county. One of the projects for this club is sponsoring a 4-H club. Several of the extension club members are also serving as 4-H club leaders.

The reading chairman, Mrs. R. L. Wadleigh, gave an excellent review of the recent issue of Country Woman. This publication is fine program material. More of the clubs might like to send in their subscription.

**Enter Plays by March 1**  
4-H clubs, extension clubs and community groups planning to enter the 30th play contest are to enter their play by March 1. Five plays are entered to date.

**Foods Leaders Training**  
Extension club foods leaders training meeting will be held Friday, March 8, in the basement of the First Methodist Church. The group will be divided with half of the group coming in the morning and half coming in the afternoon. Leaders are being notified as to which time they will attend.

## This Simple Vegetable Dish Popular

By CECILY BROWNSTONE  
Associated Press Food Editor

Colcannon, an Irish and Scottish way of preparing potatoes and green cabbage, has won popularity whenever we have served it. Our family and friends receive this simple combination with the same enthusiasm accorded some of our more complicated recipes.

We sometimes offer Colcannon on a buffet-supper menu of which the main course is roast turkey and baked ham. It's a perfect complement to the poultry and meat. For just-the-family service, you may want to follow a traditional practice: the Irish place a piece of butter over the middle of the top of each piping-hot serving and eat Colcannon with a spoon, from the outside in, dipping each bite into the little lake of melting gold.

### COLCANNON

Ingredients: 2 pounds (6 medium-size potatoes, boiling water, salt, 3 tablespoons butter or margarine, milk, 3 cups shredded green cabbage (use coarse grater and pack cabbage down in measuring), about 1/4 cup minced onion (1 small), 1/4 teaspoon pepper.

Method: Peel potatoes, halve or quarter if necessary, and place in a saucepan. Add boiling water to the depth of about 1 inch, and 1/2 teaspoon salt. Cover; bring to a boil. Cook rapidly until potatoes are soft; drain if necessary. Put through ricer or food mill or mash until smooth. Beat in 2 tablespoons of the butter and 2 tablespoons milk. In the meantime, place cabbage in saucepan. Add 2 cups boiling water and 1/2 teaspoon salt; cook until soft; drain if necessary, reserving any liquid. Also melt remaining 1 tablespoon butter in a small (6 inch) skillet; add onion and cook slowly, stirring a few times, until onions are wilted and golden—about 5 minutes. Mix hot mashed potatoes, hot drained cabbage and cooked onions together; add salt to taste and pepper. If mixture is very dry, beat in a little more milk or reserved cooking liquid from cabbage. Reheat over boiling water. If desired, serve dotted with butter. Makes 8 servings.

### OTHER WAYS WITH GREEN CABBAGE

**Dutch Dish** — Pan-fry coarsely shredded green cabbage in a little butter or margarine plus a little water. Mix with cooked drained noodles and season well with salt and freshly-ground pepper. Add an extra lump of butter for savory flavor.

**Spiced** — There's nothing new about lightly-cooked green cabbage served with melted butter, but the dish will have zip if you add Worcestershire sauce to the butter.

**Creamed** — Turn good old creamed cabbage into a shallow baking dish and sprinkle liberally with grated cheese and a little paprika; brown under the broiler.

**Fruit Slaws** — Add orange or tangerine segments, chunks or tidbits of pineapple, sliced fresh dates or fan-shaped pieces of unpeeled red apple to shredded green cabbage. Old-fashioned boiled dressing is always delicious with fruit slaws. Put slaws often on family menus because cabbage helps provide vitamin C; it also contains some of the important B vitamins and iron.

## Scouters Have Round Table

## Church May Still Tremble From Indian Chants, Drums

The Broadway Presbyterian Church service building, Ninth and Kentucky, has probably settled to the calm befitting a house of worship, but may still be trembling a little from the chants and drum beats of the Indian and his tom-tom.

At the regular Pettis District Roundtable for Scouters last Thursday night, C. A. Phillips and Lou Linn gave a brief outline of Indian dances as applied to scouting. Phillips has earlier demonstrated his Indian antics before the panel working on Cubbing. This program under the direction of Fred Benet, was given an added incentive to install Indian lore in the Cub dens, by a demonstration of moccasins making by Mrs. McQuitty of the Whittier School park.

An encore failed to haul "Indian" Phillips from his tepee; the three basic steps used by the Indians in their ceremonial dances were highlighted by the tom-tom beating of Lou Linn. Phillips stressed the fact that most people believe the Indian to be a real savage. "And he was," added Phillips, "but you would be too if you had been pushed from your land." In telling of the headress Phillips told of how people believed the Indian to be a heathen. "But he was far from that. He always had the skin of an alert animal dangling around in his face and carried a wand which was used to brush the devil from his feet as he danced."

The bells always present on the warrior's ankles were of two sizes—using bells of two tones he could more easily keep the rhythm of the tom-tom. "It is wrong," continued Phillips, "to use the war dance in any ceremonial; again I say if you were deprived of your home you would also put on a war dance. Remember, they are never to be used in connection with Scouting. We will help in any way to form a phase of Indian lore in your pack or troop."

Jim Cooney opened the discussion for the unit scouters. Bill Hatt, district committeeman helped Cooney in the opening by stating a regular troop opening by acting as senior patrol leader. Patrol leaders were selected from the scouters, and together the demonstration was carried out. Hatt said the theme for March will be "Build It." Reprints from Boys' Life were on display to help the scouters plan this program.

Paul Houston told the Scouters how to install leathercraft in their troops, and displayed various leathers and tools that he believed necessary to insure a successful program. In showing a beautifully designed gun case Mr. Houston emphasized that this was the result of long years of experience; something that can be done only by first learning the simpler steps in leather work. "The different colors displayed are done by dye—there are two kinds, water and spirit. I believe any troop can purchase the necessary tools for this hobby, and none of them are expensive." Houston warned the scouters about getting the proper leather, saying, "Bark tanned or vegetable tanned cowhide is best; horse hide is too coarse for any practical use, and chrome tanned leather just can't be used by the youngsters."

Lou Linn was in charge of the Explorer panel. In stressing the importance of letting the Explorers frame their activities, Linn said, "They are men, let them decide just how they want their post activities to be carried on; you are just an advisor—let them come to you—and they will if they can't iron out all the difficulties that face them."

Linn urged those who haven't sent in their Camp Pa-Ha-Tsi reservations to do so as quickly as possible. "The third week is gone, and the others are filling up. We are expecting the best camp we have ever had, this year, and we will if those reservations come in early."

Hatt in his report to the scouters on the window displays said, "This just concluded Boy Scout Week is the most successful from the standpoint of interesting dis-

### Exhibited Tipton Products At Chicago Show

TIPTON — Attending the Home Show the weekend in St. Louis were Mr. and Mrs. E. L. Fischer, Mr. and Mrs. Frank Lang, Mr. and Mrs. Sylvester Wolf and Mr. and Mrs. William Ketterlin. The previous week Mr. and Mrs. Fischer had been in Chicago attending a sporting goods show where they had several products on display manufactured in their Tipton factory, a home style six-pocket pool table and a Town Country Bumper game.

Mr. and Mrs. Curtis Veach and Mr. and Mrs. Frasier McVean have returned from Hot Springs, Ark., where they spent five days. Mr. and Mrs. McVean met Mr. and Mrs. Veach in Hot Springs on their return from a two weeks' trip to the Mississippi gulf coast, Natchez, Miss., and Alexandria, La. On their way to the Gulf they visited two days with Charles McVean and family in Memphis, Tenn.

Mr. and Mrs. Andy Schwickrath and Mrs. Schwickrath's cousin, Mrs. Gladys Hopen, all of Jefferson City, were in Tipton Tuesday. Everett Hickman is home after 16 days in the Missouri Pacific Hospital in St. Louis where he had been under observation and treatment.

Accidentally falling from a pole while setting it Hilary Dick suffered a broken left leg just below the knee Wednesday morning. Hilary was taken to the Lexington Memorial Hospital where he is reported as doing satisfactorily and where he will be a patient from a week to ten days. He is a member of the construction crew of the United Telephone Co. out of the Odessa office, and another Tipton boy, Bob Imhoff, son of Mrs. Louis Imhoff, is manager of the company there. Hilary is a son of Mr. and Mrs. J. W. Dick and the mother left Thursday morning to be at his bedside. A sister, Rosalia, Mrs. David Anderson of Norborne will also be with Hilary at intervals at the hospital.

The Rev. Joseph N. Fischer, pastor of the All Saints Catholic Church in Wichita, Kan., spent from Sunday until Tuesday in Tipton with homefolks. While here he stayed in the home of his brother and sister-in-law, Mr. and Mrs. E. L. Fischer.

Mrs. Jerene M. Cockerill, clerk of the Selective Service Board No. 72, Monticello County, California, reports that John M. Barry, Clyde L. Wood and Boyd W. Kirchhoff, all of California left Monday morning for induction into the Armed Services.

Conrad Mowrey, machinist's mate first class, is a patient at the U.S. Naval Hospital in Corona, Calif., where he is being treated for a lung infection. Conrad's illness was discovered a month ago as he was being checked out of the Navy after four years during which time he had been in many home and foreign ports aboard the LSD8. He is a son of Mr. and Mrs. Roy Mowrey of Syracuse.

Mrs. Virgil Helms was in Florence Monday assisting her parents, Mr. and Mrs. Ernest Duvel, in moving from their farm near there to the home of a son, Paul Duvel, who with his wife and two children, moved to the parents' farm.

Mrs. Fred Esser, Jr., and children, Ricky, 4, and Becky, seven months, returned to their home in Kansas City Thursday after a visit here with Mr. and Mrs. Jewell E. Richards and Miss Gussie Carey.

Leonard Schreck, Sedalia, is spending a visit here in the home of his brother and sister-in-law, Mr. and Mrs. Virgil Schreck.

### Betsy Siegel Shows How to Pack a Lunch

Smithton 4-H'ers met recently at Smithton School for a Valentine party.

Preceding the party the business session was held. A movie on personal appearance and parliamentary procedure was shown. Betsy Siegel gave a demonstration on how to make a sandwich and how to pack a lunch box.

David Grupe and Sharon Lamm joined the club. Refreshments were served by Candance and Rick Peck, Carolyn and Kaye Griffiths.

### Liberty Club Has Two New Members

Liberty Extension Club met Feb. 13 with ten members in attendance. Teenage drivers were discussed and some Christmas gifts were on display. Mrs. Elmer Botts was elected vice-president.

Mrs. R. H. Schmidt and Mrs. Roy Banta joined the club. Guests were Charles Rages, Wanda Green, Mary Green, Margaret Ganta, and Johnnie DeMott.

The next meeting will be March 13.

### Owen Fox Explains Parliamentary Rules

Owen Fox spoke on parliamentary procedure at the February meeting of Smelser 4-H Club. He also showed two films.

Larry Olson presided over the meeting and physical examination slips were given out. Jackie Olson gave a demonstration on what to do in case of a tornado. Ten members answered roll with "Something I can do to make the farm safer".

Miss Donna Eckles was a guest. Gary and Glenn Powell will be hosts at the next meeting.

THIS IS THE APPROVED DESIGN of the State Department's new extension building. It is four times larger than the main State structure, will cost \$57,400,000 and is expected to pull all department offices under one roof—for a while, anyway.

## US State Department to Have Building That Will House All of Its 29 Branches

WASHINGTON (NEA)—When diplomats decide to trade in their black limousins for whirly-birds, this capital will be prepared.

The helicopters will simply settle on top of an eight-story superstructure practically a stone's throw from the Lincoln Memorial.

A dream for the distant future?

No. Steam shovels are now digging a huge hole in the ground for the biggest and boldest combination of concrete, glass, steel and marble this construction conscious town has ever seen.

It's the State Department's new \$57,400,000 dream house. And there was never a better pay-off for that old "try and try again" theory.

In the last 176 years the State Department has moved 22 times trying to find a suitable dwelling. Today its offices and agencies are scattered in 29 buildings all over town.

In three years Uncle Sam's most sedate agency should be able to pull her 29 apron strings together and settle down happily under one roof—not an ordinary roof, however.

An area covering 49,000 square feet on top of the building will be specially constructed to provide for a heliport when and if one is needed.

This is just one of the features of the future incorporated in this great government building which will flank two gigantic city blocks.

Actually, it will be an extension attached to the main State building, but its size will be nearly four times that of the present structure.

"We have tried to look to the future in every instance," says dynamic Thomas S. Estes, Deputy Assistant Secretary for Operations. He's the man who's riding herd on the new building for the State Department.

### Answer Roll Call With Bible Verse

The Black Jack Homemakers met Feb. 20 at the home of Mrs. Kalo Eichholz with Mrs. Mamie Carver assisting.

There were 17 members, 11 children and the following guests present. Mrs. George Fisher, Mrs. Frank Yeager, Mrs. James Van Zlike and Mrs. Ronald Eichholz.

Mrs. Earl Oehrke presided over the business meeting and roll was answered with a favorite Bible verse. Mrs. Mamie Carver led the devotions. Mrs. Elmer Bass and Mrs. Frank Page Jr. were appointed to the committee for the annual music festival.

Two interesting lessons were given: "Beauty While You Work" by Mrs. Homer Hampy and Mrs. Carl Bremer and Mrs. Cleo Hampy talked and gave demonstrations on Personal Appearance.

Two dozen cancer dressings were made during the meeting. Homemade Valentines were exchanged.

### Miss O'Briant Speaks On Yard Landscaping

Mrs. Walton Branstetter was hostess to the Lovelace Extension Club at her home Feb. 21. Mrs. Russell Branstetter was assistant hostess.

Ten members answered roll with "Why I like housecleaning time." Mrs. Daisy Higdon conducted the meeting in the absence of the president. A letter was read from Virginia Flower, president of the Crippled Children's Center telling of a plan to set up a speech therapy to include pre-school children.

Mrs. Mollie Potter, who is 101, asked the blessing at the noon hour.

Miss Opal O'Briant, home agent, spoke on landscaping the yard.

Guests were Mrs. W. B. Hurt, Mrs. Leslie Miller, Mrs. Claud Gardner, Mrs. Ellis Glenn and several children.

Mrs. Ruth Potter will be hostess March 14.

### Flat Creek 4-H's Have Valentine Party

The Flat Creek 4-H Club had a Valentine party Feb. 15.

Sharon Ash and Judy Murray were game leaders.

Refreshments were served.

The first Bible for the blind was published by the American Bible Society in 1835 in raised lettering, not Braille.

### Michael J. Collins 95 Thursday, Feb. 28

Michael J. Collins, 315 West Fifth, one of Pettis County's oldest native sons, who spent his entire lifetime in its confines, celebrates his 95th birthday anniversary Thursday, Feb. 28.

Mr. Collins spent his boyhood days at Smithton where he was born and grew to manhood and there he had his first job working for a time under his father's direction with a section crew on the Missouri Pacific railroad.

He has an exceptional knowledge of early affairs in Pettis County's development and progress and when weather conditions are not too severe joins friends at the courthouse for timely chats and reminiscences of earlier days.

He reads the daily papers and other literature without the use of glasses.

He has in his possession a wealth of old newspaper clippings and numerous mementoes of days gone by. Among the antiques is an old time straight blade razor, over 200 years old, brought to this country by his father.

Mr. Collins before retiring and coming to Sedalia was engaged in farming.

### Kenneth Ferguson Completes Training

Army Specialist Third Class Kenneth E. Ferguson, son of Charles H. Ferguson, Versailles, recently completed the medical technicians course at Brooke Army Medical Center, Ft. Sam Houston, Tex.

The course was divided into six weeks of class room study and demonstration and eight weeks of caring for patients in Brooke Army Hospital under the supervision of Army nurses.

Specialist Ferguson entered the Army in October, 1952, and received basic training at Ft. Chaffee, Ark. He has served in the Far East.

### Founder's Day Tea Held at California

The California R-1 PTA observed Founder's Day Feb. 21. The opening devotional was given by Jack Bowlin. Program was directed by Mrs. H. W. Schmidt, assisted by members of PTA staff. A candle-lighting program entitled "Our Object Now and Then" was enjoyed with special numbers by Miss Jean Wegener, Miss Kay Francis, Mrs. John English, Jack Bowlin and a group of junior high school boys.

Mrs. H. W. Schmidt explained the use and purpose of the Founder's Day offering taken in February each year. Mrs. Dorothy Howard presided during the business meeting. Mrs. Theo Bueker, Rev. G. Elmo Purvis and Mrs. J. F. Graff were elected to serve on the nomination committee. The attendance banner was awarded to Mrs. Henry Dorzab's second grade.

Rev. E. L. Koch gave the benediction. Following the meeting the annual Founder's Day tea was served under the supervision of Mrs. Beulah Newkirk. The tea table was appointed with a lace cloth, candles and flowers. Mrs. Harold Francis, Mrs. Ray Lawson and Mrs. Alfred Volkart presided at the tea table.

### Lions Give Dinner

Members of the Versailles Lions Club entertained their ladies at a Valentine dinner at fair grounds.
